Innovation Walk-In Collection

Endless flexibility – Choose a walk in shower wetroom that's perfectly tailored to your bathroom.

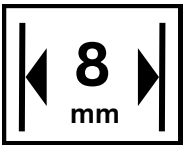

Personalise to your individual taste with the option of 8mm or 10mm toughened safety glass, and a choice of support arm styles, each available in 3 stunning finishes.

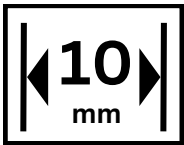

A 2000mm high walk-in collection, meticulously designed to complement any space with its flexible configurations. Select from premium 8mm or 10mm glass thicknesses, paired with an exquisite range of finishes: Silver, Matt Black, and Brushed Brass. The extensive range of design possibilities allow for complete creative freedom when choosing your dream showering space.

Walk-In Configurations

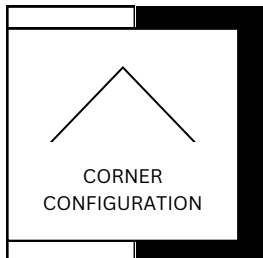

The Innovation Walk-In Collection offers the perfect combination of practicality, safety, and style, designed to suit a wide range of bathroom setups, sizes, and needs. Whether installed onto a shower tray or directly onto a tiled floor, this collection ensures ease of access and enhances the overall functionality of your space.

With its versatile design, the Innovation range is suitable for any bathroom layout, giving you the freedom to create your dream bathroom without compromise. Combining modern aesthetics with high-quality materials, this range brings a touch of luxury to your home while maintaining exceptional safety standards.

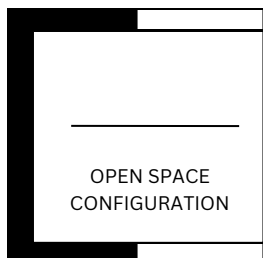

RECESS / ALCOVE - Ideal for smaller bathrooms, offering a space-saving solution.

Achieve a personalised and stylish showering area with the flexibility of a single front panel. For an added touch of luxury, add a fixed or hinged deflector panel, bringing elegance and enhanced functionality to your bathroom design.

CORNER - Provides versatile configuration options to suit various layouts.

A corner shower offers flexibility in design and function. With a two-panel layout, it mimics a standard enclosure while preventing water splashes. For a sleek finish, choose a discreet corner bracket with seal or a full height corner post.

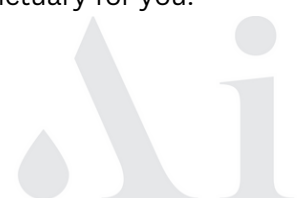

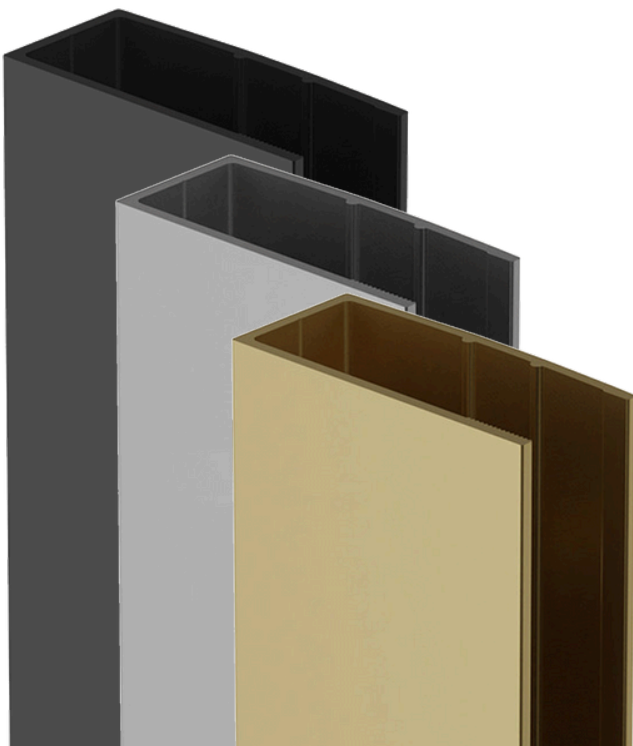

3 SIDED - Perfect for larger bathrooms, delivering extra comfort and luxury.

A walk-in shower isn't just for large bathrooms - it can replace a bath to maximise space. A walk-through 3 sided wetroom create the illusion of a shower enclosure being installed within a wetroom space. Alternatively, a flat-wall design can create a stylish walk-in shower with dual entry points.

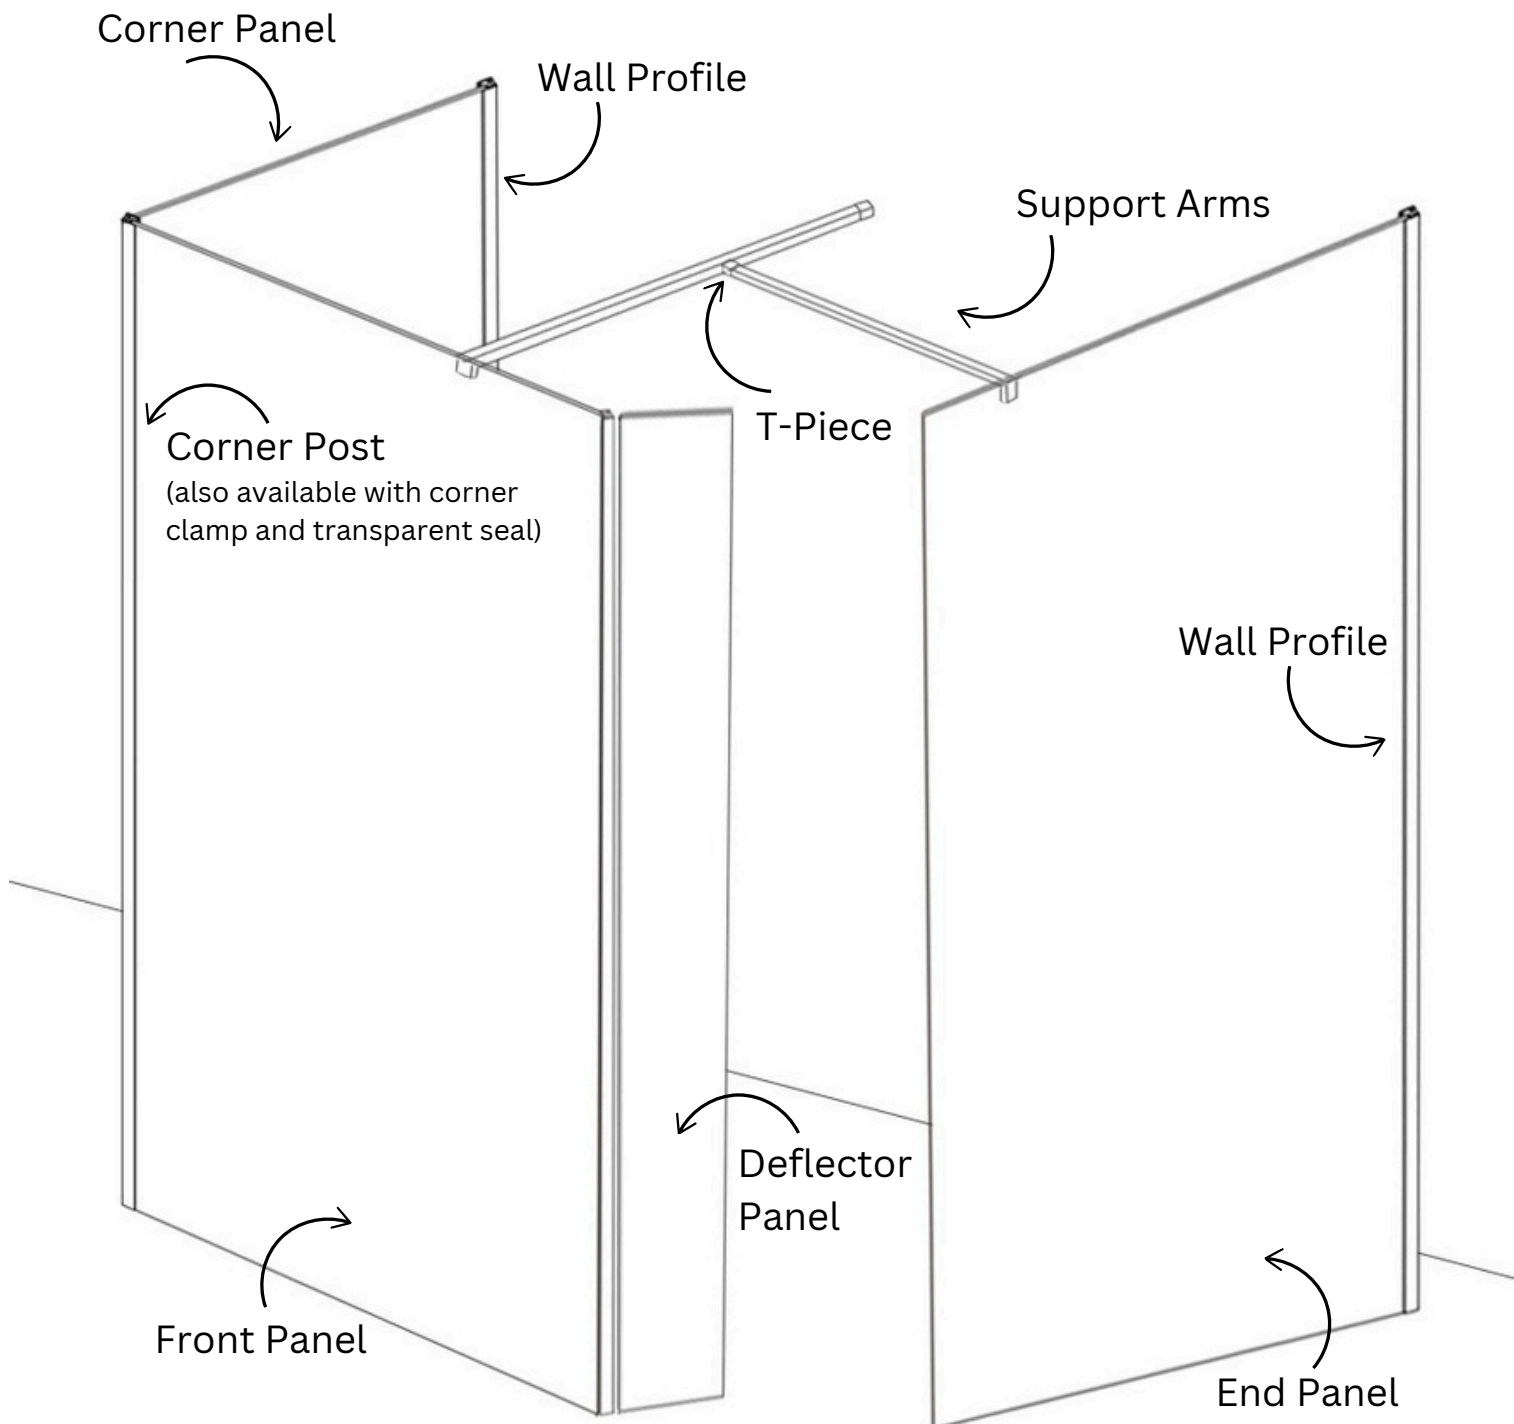

Colour Options

Transform your bathroom with our thoughtfully designed collection that combines timeless elegance with unmatched personalisation. With a stunning range of finishes to suit every taste, including chrome, matt black and brushed brass finishes, you'll find options that seamlessly fit any bathroom style. Whether you're drawn to sleek modern designs or classic sophistication, our collection brings together style and functionality to create the perfect sanctuary for you.

Components Guide

Make your dream showering space a reality with the impressive range of Innovation components. Each available in a choice of 3 stunning colours, expanding design possibilities and enhancing your bathroom aesthetic.

Guidance and Advice: Measure your space twice to ensure precision. Don't forget to include the final wall coverings or tiles in your measurements.

Front Panel 20mm | Front Panel when combined with corner panel: 10mm
Fixed Deflector Panel 10mm | End Panel 20mm | Corner Panel 20mm

Bracing Bar Options

Our stylish bracing bars provide secure support without compromising on design. Built for strength and durability, they feature concealed fixings for a clean, modern look, whether mounted on the wall or ceiling.

Choose from 3 finishes:

1. Glass to Wall Support Bar

A minimalist support bar securing your wetroom glass directly to the wall for enhanced stability.

Supplied at 1000mm long, for cutting to length.

2. Glass to Wall Support Bar & Side Panel

A seamless connection between glass and wall, ensuring a sturdy & stylish enclosure with a side panel.

Supplied at 1200mm long, for cutting to length.

3. Inline Support Bar for Fixed Deflector Panel

Provides subtle yet strong reinforcement for deflector panels, maintaining a clean and open aesthetic.

Supplied at 1200mm long, for cutting to length.

4. Angled Support Bar

A dynamic, space-saving solution designed to stabilize glass panels with a sleek, angled connection.

Suitable for fixed panels up to 1000mm wide.

5. Floor to Ceiling Post

A full length structural support for ultimate stability, offering a striking, modern design feature.

Supplied at 3000mm long, for cutting to length.

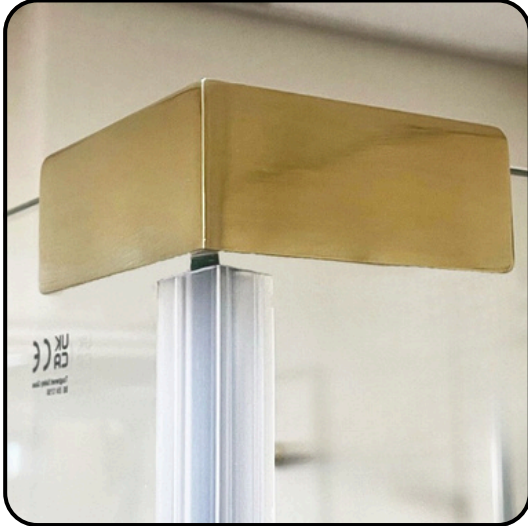

6. Glass to Ceiling Support Bar

Creates a floating effect while anchoring glass panels securely to the ceiling for a contemporary finish.

Supplied at 1000mm long, for cutting to length.

Corner Profile & Corner Clamp with Seal Option

Designed for both stability and style, our corner profiles, clamps, and support feet provide seamless reinforcement for your wetroom. Each element ensures a secure, minimalist finish without compromising on elegance.

Corner Clamp

A discreet yet strong clamp that secures glass panels at the corner, ensuring durability with a minimalist touch. Supplied complete with seal.

Corner Profile

A refined, slimline profile that seamlessly connects glass panels at the corner for a flawless finish.

Support Foot

A subtle support element designed to enhance stability while maintaining the sleek, floating aesthetic of your wetroom. Not suitable for use with shower trays.

Deflector Panels

Precision & Style for Your Wetroom

Our Deflector Panels are designed to enhance your walk-in wetroom with a sleek, modern touch while effectively controlling water spray. The 8mm panels feature a full length profile for stability, while the 10mm panels come with a hinged design for a refined, minimalist finish. Choose between a Fixed Deflector Panel for a streamlined look or a 180° Flipper Panel for added flexibility.

Configuration 18 Silver
AI8CON18-PACK with 8mm Fixed Panel

Fixed Deflector Panels

Enhance your walk-in wetroom with our Deflector Panels, designed to create a sleek and functional showering space.

AQUA CLEAN GLASS TECHNOLOGY

STANDARD GLASS

AQUA CLEAN GLASS

All our wetrooms are treated with a special protective coating to ensure the glass maintain its sparkle for years to come. Please refer to the Cleaning & Maintenance section for tips on keeping your glass shiny.

- Protects from oil and dirt
- Reduces cleaning times by up to 90%
- No more harsh cleaning chemicals
- Kinder to the enviroment

PRODUCT DETAILS & ADVICE

Based in the West Midlands, Aqua i provide a comprehensive range of high quality Shower Doors and Wetroom Solutions to suit every personal style and budget.

CLEANING & MAINTENANCE

Do not allow lime scale to build up. Clean the glass regularly with soapy water. Do not use abrasive products on any surface. Install your enclosure in a well-ventilated area. Damp environments inevitably cause corrosion over time.

INSTALLATION

Clear and easy instructions are included with every purchase. Alternatively, you can find the installation guidelines on our website. Please note that all dimensions are approximate. All products must be installed in accordance with our guide. Failure to follow the recommended instructions may void the guarantee.

GUARANTEE

All Aqua i products are covered by manufacturers guarantee, subject to our terms and conditions. For more details please visit our website.

ERROR & OMISSIONS

The specifications, measurements and information provided in this brochure is in line with our policy for continuous improvement, we reserve the right to amend any product specification without prior notice. For full terms & conditions and to register the guarantee, please visit our website www.aquaiproducts.co.uk
